

A declarant is obliged under EU legislation to register for EORI. In this regard, traders should be advised strongly to apply for an EORI number before the filing of the first declaration.

The EORI application process differs according to whether the declarant is established within or outside the customs territory of the Union:

- (a) A declarant established in the customs territory of the Union must apply for an EORI number to the customs authority or, if different, the designated authority of the Member State in which the declarant is established
- (b) A declarant not established in the customs territory of the Union must apply for an EORI number to the customs authority or, if different, the designated authority of the Member State where the declarant will first lodge an entry summary declaration or where they apply for a customs decision.

(Article 9 UCC refers)
