

In the following situations, the time-limit for lodging the pre-departure declaration shall be that applicable to the active means of transport used to leave the customs territory of the Union:

- a) Where the goods have arrived at the customs office of exit on another means of transport from which they are transferred before leaving the customs territory of the Union (inter-modal transport).
- b) Where the goods have arrived at the customs office of exit on a means of transport which is itself transported on an active means of transport when leaving the customs territory of the Union (combined transport).

(Article 244(3) of the UCC DA refers)

4.5 Exceptions to the general obligation to lodge a declaration within specified time limits and without safety and security data.

The goods below are exempted from the requirement to lodge a pre-departure declaration. It is important to note that this does not imply that the goods do not need to be declared to customs on export. In many of these cases, the declaration takes a “special” form in accordance with the rules applicable in the case (for example, presentation of an ATA Carnet or an oral customs declaration). These goods do not need to comply with the specific time-limits and the declarations do not need to contain Safety and Security data. It is important that the declaration is lodged at the office of export as early as possible to allow for the conduct of risk analysis and uninterrupted cargo flow. Goods exempt include.

- electrical energy.
- goods leaving by pipeline.
- items of correspondence.
- goods moved under the rules of the acts of the Universal Postal Union.
- household effects as defined in Article 2(1)(d) of Regulation (EC) No 1186/2009 provided they are not carried under a transport contract;
- goods contained in travellers’ personal luggage.
