

7.3.4 Departure of aircraft engaged in non-Union traffic.

The approved handling agent, for a flight engaged in non-Union traffic, must lodge an electronic cargo manifest in respect of all goods on board within twenty-four hours before the departure of the aircraft. A list of all stores loaded is to be provided to Revenue for inspection. (Section 11 of the Customs Act 2015, the Customs (Reports Inwards and Outwards by Aircraft) Regulations 2016 (S.I. No. 613 of 2016), the Customs (Electronic Filing of Returns) Order 2016 ([S.I. No. 614 of 2016](#)) and the Customs (Mandatory Electronic Filing) (Specified Persons) Regulations 2016 ([S.I. No. 615 of 2016](#)) refer).

7.3.5 Dutiable stores

In the case of aircraft departing to a non-Union country via other customs airports, as well as the requirements set out in paragraph 6.10, dutiable stores loaded at the first customs airport must be placed under company seals there. The stores list should be noted with the number of the seals. Officers at the other customs airports are to ensure that the seals are not broken, nor any stores consumed or sold to passengers, prior to the aircraft's final departure to a non-Union country.

7.3.6 Private aircraft

All flights departing for non-Union countries or for areas outside the fiscal territory of the Union must depart from a Type I or Type II customs airport. Prior notice of the flight and the maintenance of records will be required by Revenue for a Type II customs airport.

7.3.7 Private aircraft departures at Type I customs airports

Where a private aircraft departs from a Type I customs airport, the pilot-in-command is required to inform customs and lodge a cargo manifest of any goods carried. This requirement may be dispensed with where local management is satisfied that sufficient flight information is maintained by the airport authorities or other independent sources, for example, handling agents and is made available for inspection by customs.

7.3.8 Customs facilities at Type II customs airports

The Revenue Commissioners may grant permission to licensed aerodromes in respect of the departure of flights, carrying only passengers, pilot and crew and their ordinary baggage, for non-Union countries or areas outside the fiscal territory of the Union. District Managers should be satisfied in respect of permission granted that sufficient controls are in place proportionate with the level of possible risk to ensure that export prohibitions and restrictions will not be breached. District Managers are to ensure that approvals are in place and that the operator is compliant with the terms thereof. Staff should familiarise themselves with the [Civil Aviation Manual](#) in this regard.
