9.1 Simplified export declarations

Sections 4 and 5 of this manual describe the procedures for lodging a standard electronic customs declaration for release for free circulation. However, in certain circumstances and subject to certain conditions economic operators who are considered compliant and trustworthy may be authorised for a simplified procedure.

This may take the form of a simplified declaration which allows the authorisation holder to submit a declaration that omits certain particulars of the standard declaration or the supporting documents that are required for a standard declaration.
