

Goods may be imported or landed only at a place approved by Revenue and in the presence, or with the authority, of the proper Revenue official. Goods arriving in the State contrary to this are liable to forfeiture. Goods, which arrive at an approved place, must be presented to Revenue.

The following places must be approved for the arrival of goods or their storage:

- (i) Temporary Storage Facilities.
- (ii) Customs Airports.
- (iii) Customs Ports.

2.6.1 Temporary Storage Facilities

A Temporary Storage Facility (previously known as a transit shed or container compound) is a secure building, area or enclosure located in a port, airport etc., in which imported goods may be stored pending presentation of declarations. They are permanent fixtures and are constructed to standards for buildings/compounds used to store goods. The standard of security provided must be satisfactory.

Goods imported elsewhere may be removed to another Temporary Storage Facility (see under Instructions governing the removal of uncleared goods from import stations).

Care should be taken to ensure that Temporary Storage Facilities have been approved for the landing of all goods (as some are approved for specific goods only), which are to be deposited in these premises.

Other approved places for Temporary storage

Other approved places for Temporary Storage (i.e. a quay, pier, etc.), at which goods are permitted to be landed or shipped will require prior consent of Revenue. They will be approved in exceptional circumstances, e.g. to facilitate the discharge of dirty or dangerous cargoes, or the discharge or loading of a ship unable to berth at an existing approved place. Written application must be made, to the relevant local officer, well in advance by persons seeking permission to load or discharge cargo. The application should normally be accompanied by a professional architectural drawing of the site. This requirement may be waived where, due to the age of the facility, a professional architectural drawing is not available, and, in such circumstances, a suitably accurate sketch may be accepted. The application with supporting documentation should be referred to Authorisation and Reliefs Unit, Customs Division, Government Buildings, Nenagh, Co. Tipperary for approval.

Where the imported goods are destined for a Temporary Storage Facility (TSF) (previously known as Authorised Consignee Premises), they may be removed under the conditions set out in the Transit Instructions to staff. Authorised Consignees are required to have authorisations for Temporary Storage, their Temporary Storage Facility and are required to have a Guarantee in place.

Further information on Temporary Storage Facilities can be found in the [Temporary Storage Facilities Manual](#) and on the [Temporary Storage section](#) of the Revenue website.
