

entered at Data Element (DE) 6/15 (Commodity Code – TARIC Code) on the customs import declaration.

Every product has a specific CN Code. For example, vehicles are classified for customs purposes under goods code: 8700000000. This will be further broken down by the vehicle type (i.e. motor vehicle – 8703) and then the specifics of the particular vehicle.

The most common vehicle is: 870321 - Motor cars and other motor vehicles principally designed for the transport of $\leq 1.000 \text{ cm}^3$ (excl. vehicles for travelling on snow and other specially designed vehicles of subheading 870310).

There is a different code for new and used vehicles

- 8703211000 – new vehicle
- 8703219000 – used vehicle

You must declare the Customs office that you will bring the goods in through. For example, the Customs office of lodgement Code i.e. “IEDUB100” is for Dublin Port. There is a full list of the codes available on the [EU Commission website](#).

For further assistance on submitting an import declaration or accessing AIS please contact eCustoms@revenue.ie

Other information can be found in the [Customs traders and agents](#) section of the Revenue website.

6.1.1 When declarations are to be made

A declaration may be lodged up to 30 days in advance of the presentation of the goods to customs. However, the date of acceptance of the declaration is when the goods are presented. If the goods are not presented within 30 days, the declaration is deemed not to have been lodged (Article 171 UCC).

6.1.2 Who may lodge the declaration?

Declarations may be lodged by any person able to present the goods to customs or have them presented. In the majority of cases, this will be the importer or an agent acting on their behalf. The declarant must also be able to provide all the necessary information for the import procedure. The declarant must be established in the customs territory of the Union. However, this requirement may be waived (see Article 170 (3) UCC).

6.2 Processing of electronic import declarations

6.2.1 AIS

Import declarations are lodged via AIS which is responsible for the validation, processing, duty accounting, control and clearance of customs declarations for imports, in compliance with the provisions of the UCC. The system also checks data
