Further information on the requirements for [sending goods via Northern Ireland](#) can be found on the Revenue website.

4.4 Time limits for lodgement of declarations

The time limits for lodging an export declaration in various situations are as set out in the following Table (Article 244 of the UCC DA refers). It should be noted that in practice, for all modes of transport, the declaration must be lodged earlier than the time limits set out in the Table to enable the office of export to carry out the necessary risk analysis. For example, in the case of containerised goods being sent from Dublin to the US via Rotterdam, the sequence of events is as follows:

- (a) The declaration must be lodged at the customs office of export which is Dublin.
- (b) Risk analysis is carried out in Dublin and the goods are released with the relevant message exchanges occurring through AES.
- (c) The goods are sent from Dublin on a vessel of an Authorised Regular Shipping Service and arrive in Rotterdam which is the office of exit. There, they are loaded on to the ship which will take them to the US.
