

5.4 Completion of the customs declaration

Declarations lodged in AES must contain datasets aligned to the Revised Annex B as depicted in [EU Customs Data Model 6.2](#).

A declaration should only be lodged when all information about the goods, including any supporting documentation, is readily available. The declaration is a legal document informing Customs of what goods are expected to be leaving the state.

AES changes: Declarations lodged in AES must contain datasets aligned to the Revised Annex B as depicted in [EU Customs Data Model 6.2](#). Data Elements will replace SAD boxes in AES. More information on AES can be found [here](#).

5.5 Documents to accompany the customs export declaration.

5.5.1 General

The general position on accompanying documents is set out in paragraph [5.3.4](#).

(Article 163 of the UCC refers)

5.5.2 Transport documents / packing lists

Officers are entitled to require exporters to produce transport documents or documents relating to the previous customs procedure, as appropriate, when the export declaration is lodged. Where a single item is presented in two or more packages, Officers may also ask a packing list or equivalent document indicating the contents of each package.

(Article 15 and 163 of the UCC refer)

5.5.3 Export licences

When an export licence is required to be presented, the licence is to be endorsed before being returned to the exporter. When exhausted, it is to be retained with the last relevant customs declaration or, where required, is to be returned to the relevant Department and a copy retained.
