

Section 8. Other Import Procedures/Reliefs

8.1 Simplified Procedures

[Section 6](#) describes the procedures for lodging a standard electronic customs declaration for release for free circulation. However, in certain circumstances and subject to certain conditions economic operators who are considered compliant and trustworthy may be authorised for a simplified procedure.

This may take the form of a Simplified Declaration which allows the authorisation holder to submit a declaration that omits certain particulars of the standard declaration or the supporting documents that are required for a standard declaration (Article 166 UCC).

Another simplified procedure is Entry In the Declarant's Records (EIDR) which allows the authorisation holder to lodge a customs declaration in the form of an entry in the declarants records, provided that the particulars of that declaration are at the disposal of the Customs Authorities in the declarants system when the entry in the records is made (Article 182 UCC).

Further details on [Simplified Procedures](#) can be found on the Revenue Website.

8.2 Goods for diplomatic and consular representatives and other persons entitled to diplomatic status treatment

8.2.1 Persons/Institutions entitled to privileged treatment

Special treatment is to be given in respect of goods imported:

- For the official use of an embassy and goods imported by a diplomat or their family for personal use.
- For the official use of a Consular post and goods imported by a Consular Officer or their family for personal use.
- By an Honorary Consular Officer for the official use of a Consular post.
- By non-diplomatic USA Consular employees or their families for personal use.
- By the UN for official use, its publications and goods imported by the Secretary General or Assistant Secretaries-General or their families for personal use.
- By the Specialised Agencies of the UN for their official use, their publications and goods imported by the Executive Head of each Specialised Agency or their family for personal use.
